Fort Meade VAMC EHRM DDPO Installation

SCIpact LLC is an SBA certified Service-Disabled Veteran-Owned Small Business specializing in electrification, energy, and integration related services for federal clients. SCIpact was awarded a competitively selected contract to provide DDPO (data drops and power outlets) in support of the VA's electronic health records management upgrade. Scope included providing 42 DD and 25 PO in 39 locations, along with installing 8 TV's & mounts. Project challenges included scheduling activities around an active Emergency Room and coordinating with VA personnel when in sensitive areas such as the Pharmacy. Our experienced team of electricians and low voltage technicians performed ahead of schedule, on budget, and with exceptional quality. Contract personal with the Network Contracting Office stated, "It has been a pleasure working with you guys and I hope to work with you on more projects in the future."
